

CAST-OFF SUITOR WANTS GIFTS BACK

Former Widow Sued for
Washing Machine and
8 Dozen Pencils.

CLEVELAND, Ohio, Nov. 1.—Every morning in the week had August Palutze called at the confectionery store of Mrs. Lena Van Der Heiden, a widow. He sent her flowers. He bought a washing machine to ease the labors of house-keeping, and a photograph with which to lighten her leisure hours.

When she wished to enlarge the business of her little store he bought a scales and a set of weights, together with eight dozen lead pencils. All went well and although the wedding day had not been set, it was generally understood that they would be married in the winter.

But in the doubly evil day, Palutze fell ill and for the only time during their courtship he failed to call on his adored one. She wondered and when John Hartman, a neighbor, dropped in, she was feeling piqued at August's dereliction and said so. He consoled her. In the course of the afternoon he proposed, was accepted, and they were married. When August dropped around the following morning he was surprised to find that the widow was no longer a widow.

Then in Justice Morrow's court Palutze reclaimed the washing machine, the photograph, records, scales and pencils. "She may keep the flowers and candy," he observed, "that goes in as part of the courtship."

Boiling Water Burns Raiders At University

CHICAGO, Nov. 1.—Olive oil, flour and water paste, and other remedies were in urgent demand at the Evanston police station this morning, where thirteen Northwestern University students were nursing bruises and burns received in their annual Halloween raid on Heck Hall last night. Eight "theologians" are recovering from the shock of a sudden bath in Lake Michigan which they took at the behest of a squadron of attacking party who captured them as they emerged to give battle.

The theological students were looking for the "rush." Great quantities of water were kept boiling and hose was laid from the tanks to the windows, where the streams were directed with telling effect. The "coppers" of the battle caused Dr. Little, vice president of the Garrett Biblical Institute, to call the police. When the "coppers" arrived they, too, came in for their share of the hot water before the theologians recognized them as a relief party.

The university authorities will prosecute the thirteen students under arrest.

FATHER AND SON HURT; FEARED BOTH MAY DIE

NEW YORK, Nov. 1.—Seven persons were seriously injured in Brooklyn today when three trolley cars crashed into as many wagons. A Ralph avenue car at Madison street hit a small runabout and threw out J. Cohen and his son, David, of 20 Hamburg avenue. Both may die.

CARUSO'S SUPERIOR (?) IS NEW YORK PAINTER

NEW YORK, Nov. 1.—Because of the ease with which Joseph Aronstein, a Bronx painter, in reaching high "C" at a piano duet, Jacob Ginsberg, a teacher of vocal music at No. 262 East Broadway, obtained for him through several well-known men interested in the Metropolitan Opera House money to send Aronstein to Milan to study under Maestro Castellano, one of the most prominent instructors in Italy.

The teacher is convinced that Aronstein has a greater voice than Caruso.

THE ALL-BINDING OATH OF THE MOHAMMEDAN

Of all the many forms of taking the oath used in the courts, perhaps the most picturesque is that which the Mohammedan is required to take. It is a silent ceremony. The Imam places his right hand upon the Koran and puts the other on his forehead; then he brings his forehead down to and in contact with the book. He then raises himself and looks up steadfastly for some seconds. The officer of the court should then though he sometimes forgets this ask the Mohammedan, "Are you bound by the ceremony you have performed to speak the truth?" and the answer is, "I am." In India the ceremony has been abolished in favor of the affirmation—From an Exchange.

Special Watch Sale

20 Ladies' Gun Metal Watches, stem wind and set: \$3 value. Special for tomorrow, \$1.95

13 Ladies Solid Gold watches. Full jeweled movement. \$18 value, special price, \$12.00

BALANCE OF TRADE A MYTH; COUNTRY REALLY INDEBTED \$104,000,000 TO EUROPE

Statistical Abstract Makes It
Appear Foreigners Owe
America.

Gold Supply Should Be
Protected by Rates of
Exchange.

The cheerful "balance of trade" statistics manufactured for this Government and widely circulated as evidence of the abounding prosperity of the United States, have once more done their worst.

The present financial flurry adds one more proof that our immense trade balance is a myth and a delusion. In the main it doesn't exist; and to the extent that it is systematically made to appear larger than it really is, it has been persistently leading the country astray.

Turn to the Statistical Abstract of the United States, page 116, and any inquirer can find proof that a financial flurry at this time is utterly impossible. For there it is set down that for the 1906 fiscal year the balance of trade in favor of this country was \$37,000,000. The balance for the fiscal year 1905 was \$46,000,000. The balance of trade represents the difference in our favor between export and import values. The difference, of course, must be paid to us by our foreign creditors in gold. The country is full of folks who think it actually is so paid.

\$400,000,000 That Doesn't Come. But a glance at page 151 of this same Statistical Abstract proves that there is an awful mistake somewhere. We don't get the money that the foreigners ought to be sending us. Last year we got only \$22,000,000 of it, on a trade balance of \$46,000,000. No wonder we are hard up, with these aliens failing to remit nearly \$400,000,000 that they owe us.

Why don't they pay up? Because they don't owe it. Because the balance of trade in our favor is a fake. It is a misleading, vicious, dangerous fake, too.

Here are some real statistics—all from this same abstract. From 1890 down to 1907, both inclusive, the aggregate balance of trade in our favor was the stupendous sum of \$6,885,000,000. All of it ought to have been paid in gold by the foreigners if the prosperity stumps were right. How much actually was paid in gold?

It appears that from 1890 to 1907, inclusive, our imports of gold from our exports, not by \$6,885,000,000, but by \$28,497,000. On the face of the returns it seems plain that the foreigners have played frenzied finance on us.

Balance of Trade Wiped Out. For 1907 the trade balance in our favor was \$446,000,000, and the balance in our favor of gold movement was \$2,000,000. How did the foreigners pay the other \$388,000,000 of their obligation to us? The statistics about this subject are not official, though they come from the highest sources, and are believed to be on the side of conservatism. The items approximate \$500,000,000.

This wipes out the favorable trade balance, and leaves in its place an unfavorable balance of \$104,000,000. The foregoing figures represent careful investigation that has been made by people in position to get the best available information. They do not represent any interest which is hostile to or critical of the reports about the balance of trade. In every case they are regarded by high authorities as conservative.

Country Not Hard Up. All these things do not by any means indicate that this country is hard up. We wouldn't have \$100,000,000 to invest abroad annually if we weren't doing quite well at home. Neither would the foreign-born Americans be sending \$100,000,000 home in presents if they didn't have it to send. Some hundreds of thousands of Americans wouldn't be traveling abroad annually if they were pinched by poverty. All these things tell a story of prosperity and national affluence. An unfavorable balance of trade, at worst, means merely that we have the money to buy things that we want more than we want the money.

Country Not Hard Up.

YANKEES PAY ALIENS HIGH

Items in the outgo from the United States to foreign countries:
Expenses of Americans traveling abroad.....\$150,000,000
Money sent abroad for investment.....150,000,000
Freight paid to foreign-owned vessels on imports.....50,000,000
Interest on foreign holdings of American securities, or money paid for their redemption at maturity.....100,000,000
Money sent by American citizens of foreign birth to relatives in other countries.....100,000,000
Total.....\$500,000,000

The difficulty is about letting the country go on misunderstanding its situation. If there really is a balance of \$100,000,000 against us, instead of a balance of \$446,000,000 in our favor, the great interests which have to do with arranging the rates of exchange ought, statisticians say, to take cognizance of the fact. The gold supply of the country should be protected at times, rates of exchange ought to be so adjusted, when there is occasion for it, that the lugging of money out of the country would be made unprofitable and difficult.

Europe Protects Its Gold.

The Bank of England, the Bank of France, and the German Imperial Bank are always prompt to use their immense power to protect their national gold stocks. The United States might lose less of its gold stock at inconvenient times, it has been suggested, if there were some corresponding higher financial intelligence in this country. The prediction is freely made with a view to all the facts in the situation. Other countries have machinery for protecting their gold in the face of more difficult conditions than the United States has yet met.

There is a growing demand for the application of some like intelligent supervision to our international trade relations. The prediction is freely made by many public men that the current flurry will serve the purpose of directing attention more sharply than ever before to this need. To the needed city of such revision of financial organizations will make effective measures possible.

ROBS CARPENTER SHOP; VALUABLE TOOLS TAKEN

The carpenter shop located at Fifteenth and B streets northwest was entered last night by a light-fingered "gent." Besides a few bundles of sawdust and lead pencils, the only other things visible today are several vacant spaces where valuable tools, a box of cigars, and a box of stamps had been. J. C. King lost the box of cigars and 22 worth of stamps. On one iron roughing, of 916 Sixth street northwest, missed his box of tools, as did Theodore Alexander.

BACON AND HOGG.

Lord Salvesen, in a recent address at Edinburgh, recalled the old days of human life was held very cheap and judges frequently indulged in levity when life was at stake. On one occasion Sir Francis Bacon was "milkily importuned" by a malefactor to save his life. All appeals failed, and the culprit at length pleaded for mercy on account of his kindred.

"Your name," said he, "is Bacon, and my name is Hogg, and in all ages Hogg and Bacon are so nearly kindred that they are not to be distinguished. I am not a Hogg, but a Bacon, and I cannot be kindred except that you be hanged, for Hogg is not Bacon until it be well hanged."—From the Denver News.

'T WAS EVER THUS.

Rising to his feet in the Virginia Legislature, Patrick Henry was about to launch his "Give-me-liberty-or-give-me-death" when—

"Don't make that speech, Pat," a conservative statesman interrupted, "you'll hurt business everywhere and you may bring on a panic."—Puck.

THE GREAT DANDERINE NEVER FAILS TO PRODUCE THE DESIRED RESULTS

MISS Lewis' hair was very thin and it was less than two feet in length when she began using Danderine. She says her hair and scalp are now fairly teeming with new life and vigor.

That's the main secret of this great remedy's success as a hair grower. It enlivens, invigorates and fairly electrifies the hair glands and tissues of the scalp, causing unusual and unheard-of activity on the part of these two most important organs, resulting in a strenuous and continuous growth of the hair.

The following is a reproduction of Miss Lewis' last letter:

January 3, 1905.
Dear Doctor Knowlton:—
You know I told you in my first letter that my hair would not reach much below my shoulders, and that all of it together only made one tiny braid.
I am sending you my photograph, when I had taken at Stevens Bros. It tells the whole story better than I can tell it.
Everybody I know is using Danderine, so you see I am doing something to show my appreciation.
Sincerely yours, (Miss) EVA LEWIS.

Danderine makes the scalp healthy and fertile and keeps it so. It is the greatest scalp fertilizer and therefore the greatest hair-producing remedy the world has ever known. It is a natural food and a wholesome medicine for both the hair and scalp. Even a 25c bottle of it will put more genuine life in your hair than a gallon of any other hair tonic ever made. It shows results from the very start.

NOW at all drug stores in three sizes, 25 cents, 50 cents and \$1. per bottle

FREE. To show how quickly Danderine acts we will send a large sample free by return mail to any one who sends this advertisement to the Knowlton Danderine Co., Chicago, with their name and address and 10 cents in silver or stamps to pay postage.

COW IN TROUBLE; SIGNALS FOR AID

Falls in Spring and Stops
Flow to Barn With
Foot.

TYSON, Vt., Nov. 1.—When Abram Burton and his hired man went after the cows a couple of nights ago to drive them to the barn for milking one Holstein was missing. She was a valuable animal, and Mr. Burton worried considerably as he feared she might have broken a leg on the rough mountain pasture or become hung in a barbed-wire fence. He therefore instructed his men to start out early next morning and locate the bossy.

When the men reached the barnyard they were further disturbed to find that the water in the trough had dried up and that it would be necessary to draw a horsehead from the brook. The water supplying the barn is piped from a spring a mile up the mountain, and is also used in the house to which a branch main runs. On reaching the house it was found that the supply there had also ceased, so it was concluded that the trouble lay at the spring.

At sun-up the next morning the men started up the mountain to look for the cow and repair the pipe. As they neared the spring they were surprised to hear a moaning, and see the nose and horns of the missing bossy protruding over the edge of the bank. The rest of the cow was submerged in the cold water, and the reason why the supply had been cut off was plain.

Some time during the previous day the cow had slipped into the spring and her hind legs had come down upon the intake pipe. This had so jammed it that the water could not flow. As the pipe was too high above the bottom of the spring it had saved the cow from drowning, but now she had maintained her footing all night on the pipe and she appeared to be little the worse for her unusual experience. It required the rest of the day to repair the pipe.

A-Ridin' on Mule, Woman Ends Trip Of Thousand Miles

NEW YORK, Nov. 1.—After exploring South America and traveling 30,000 miles by sea, Mrs. Marie Robinson Wright, of Newnan, Ga., famous as the "most traveled woman in the world," is on her way to New York after a thousand-mile ride on muleback from Bolivia and a trip across the ocean to Europe.

Mrs. Wright has traveled chiefly in South America. She has sailed twice around that continent, and has crossed the Andes five times. Her exploration of Bolivia made on muleback required two months.

The Public Library today opened a special room, on the shelves of which are books and current magazines on the useful arts and sciences. These will include engineering, electricity, physics, chemistry, manufactures, architecture, building carpentry, gasfiting, plumbing, wood and metal working, automobiles, railroads, telegraphs, telephones, printing, shorthand, bookkeeping, accounting, and numerous other subjects.

The room seats about fifty persons and is in charge of men who are familiar with technical and scientific subjects.

DUG UP DEAD GIRL TO KEEP HER NEAR

NAPLES, Nov. 1.—A particularly gruesome story of a young man driven to madness by despair over the death of the woman who was to become his wife has come to light in this city through the arrest of Pietro Alessandrino.

A few days before the date set for his marriage to Eliza Sossil, a beautiful young woman, he died. Alessandrino, his reason giving away, dug up the body of his wife, buried it in a hole in the wall, where he embalmed and dressed it in bridal clothes.

Alessandrino was missed and a search instituted. After a fortnight he was discovered sitting beside the body of the woman who was to have been his wife. He was arrested and the body was buried.

A GRASS WIDOW.

"Why do you call her a grass widow, her husband is dead?"
"I know it, but he was killed in a hay press."—Houston Post.

Catarrh of The Stomach

A Most Dangerous Disease, Which Causes Serious Results, Unless Properly Treated.

Catarrh of the Stomach is very common and is known as one of the most obstinate diseases, which, when neglected or improperly treated with cheap patent medicines, tonics, drugs, pills, and other secret quick remedies results in a broken down constitution and often consumption and death.

Catarrh of the Stomach, like every other disease of the stomach, except cancer, is the result of poor digestion. The digestive organs have become weak, there is a lack of gastric juice, your food is only half digested, and as a result you become affected with loss of appetite, pressure and fullness after eating, heartburn, vomiting, waterbrash, tenderness at pit of stomach, slimy tongue, bad taste in the mouth, constipation, pain in limbs and face, sleeplessness, nausea, belching of gas, diarrhoea, sick headaches, dizziness, mental depression, nervous weakness, and many other common symptoms.

If your stomach cannot digest the food you eat, then the stomach needs a rest, as that is the only way you can get rid of your catarrh, but in the meantime your body needs plenty of nourishment, because you must live and in order to live you must eat, and if you must eat, your food must be properly digested, and if your stomach is too weak to do the work, then you must get a substitute that will do the work.

Stuart's Dyspepsia Tablets are the only known substitute that will digest your food as well as any healthy stomach. They contain vegetable and fruit essences, and are made of the finest golden seal and diastase, the very elements necessary to digest all foods.

Stuart's Dyspepsia Tablets are not a secret remedy and for that very reason thousands of physicians all over the United States recommend them to their patients for catarrh of the stomach, the dyspepsia of all kinds, and other stomach troubles. Experiments and tests have proven that one grain of the active principle contained in these tablets will digest 3,000 grains of food.

Stuart's Dyspepsia Tablets are in the form of pleasant tasting, sugar coated lozenges and are sold in large fifty-cent boxes at all drug stores.

STUART'S DYSPEPSIA TABLETS.

Send a young man an address and we will send you a free sample package. The relief you will get from this trial package will still convince you of the merits of Stuart's Dyspepsia Tablets. Address F. A. Stuart Co., 159 Stuart Bldg., Marshall, Mich.

REMOVES S.S.S. BLOOD HUMORS

When the blood becomes infected with unhealthy humors the effect is shown on the skin in the form of pimples, rashes, eruptions, or some other type of skin disease. These humors circulating in the blood, come in contact with the delicate tissues and fibres of the skin and produce irritation and inflammation, and often excessive itching and burning. Trying to cure skin troubles with external applications is treating the effect instead of the cause. Such treatment perhaps allays some of the itching and discomfort, but does not reach the blood where the real source of troubles lies. A thorough cleansing of the blood is the only cure for humors in the blood. S. S. S., a gentle acting, safe blood purifier, is the proper treatment. It goes down into the circulation and neutralizes the humors and removes them from the blood. S. S. S. supplies the blood with the fresh, healthy properties necessary to sustain the skin and keep it free from disease. S. S. S. cures Eczema, Tetter, Acne, Salt Rheum, pimples, boils, rashes, and all other skin affections and diseases, because it purifies the blood and removes the humors which are responsible for the trouble. Book on Skin Diseases and any medical advice desired sent free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.
